

Topics for your notebook

Choose from the following topics to write about in your notebook. If you have other topics you would like to write about, please write about them.

1. Draw a picture of your car and label the parts.
2. What speed did you choose for your gearbox? Why?
3. What size wheels did you choose? Why?
4. Did your car come out the way you expected? If not, what surprised you?
5. Did you have trouble with any part of the car? If so, what gave you trouble? Were you able to fix the problem?
6. What have you learned or noticed while building your car?
7. Did you like building the car?
8. If you had an opportunity to do this project again, is there anything you would do differently?
9. If you were to design a car now, how would your design be different?
10. Did you help others to build their car? If so, who did you help and what did you help them with?
